8. PERMITTED FISHING METHODS:

- A. All fish must be caught on rod, reel, line and hook with artificial lures. No traps, snares, set lines or other methods of fishing other than rod, reel and line are permissible, even if level under state game laws.
- B. Acceptable measuring boards include the "Hawg Trough" manufactured by Hagen's, a FishStik Version 2 (with Bump Board Arrows and Lock Slide) and the Ketch Co Measuring Board. Measuring boards may

be shortened removing inches from the upper end (opposite the fence) For example; one may cut a measuring board off at the 26 inch mark in order to fit crossways between a watercraft's gunwales. However, it may not be broken, snapped, or cut apart and then reassembled at any point between the two ends. A crack that does not separate the measuring board into pieces and does not affect the measuring board's accuracy may be repaired and reinforced for use. Violation will result in denial of photo.

C. Each competitor must have a mobile phone with camera or a digital camera with memory card and/or download cable to submit digital photographs.

D. Nets and grippers (e.g., Fish Grip, Boga-Grip) may be used for landing fish during tournament competition, but grippers must not remain attached to the fish in photos.

E. Only artificial lures, biodegradable artificial lures may be used. No live bait, preserved bait, or prepared bait will be permitted during competition, with the exception of pork strips or rinds.

F. Only ONE casting, spin-casting, spinning, or fly rod and reel may be in use at any one time. A hung lure that is not in or on the water is not considered in use and may be set aside while another is in use. Other rigs as specified above may be in boat ready for use; however, only ONE is permitted in use at any given time.

G. If a Competitor breaks his line while setting the hook or retrieving a fish, he is allowed to make an attempt with the rod being used or by hand to secure the line and land the fish to be counted as legal. He may NOT hook the line with another lure, rod and reel, or other device. If a Competitor loses his rod and reel while landing a fish he MAY use another rod and reel to retrieve the lost outfit. If that rod and reel is verified to be the lost outfit that and the fish is still hooked, it may be landed, photographed, and submitted as a legal fish.

H. Competitors are allowed to share baits and tackle at all times.

I. During the hours of competition, contestants may not obtain or receive assistance, including but not limited to following a non-competitor's boat, the placing of markers by any non-competitor, towed by or riding on motorized vessels or electronic, voice or data communication from a non-competitor.

J. Contestants may not leave the boat to stand or to wade while fishing.

9. Watercraft & Propulsion

A. Only fish caught from kayaks, canoes, paddleboards or other acceptable watercraft are eligible for scoring. Acceptable watercraft is defined as any watercraft defined by the manufacturer as a kayak, canoe, or paddleboard and sold as such.

B. TKAAs Tournament Committee must approve in advance any other craft, paddled or otherwise propelled. No gasoline/electric-powered boats, sailboats, jon boats, float tube, pontoon boat, or similar craft will be permitted. For questionable craft that may not qualify, contact TKAAs Tournament Committee in advance for eligibility determination.

C. Trolling is permitted as long as the Competitor adheres to the one-rod rule (8.F, above).

D. The use of motherships (i.e., transport or assistance from a powerboat in moving locations) is NOT permitted. Assistance from powerboats is permitted only in emergencies, as when pulling a kayak from

a danger zone or restricted area. Fishing may resume following emergency assistance only if no appreciable relocation occurred.

E. Competitors may not fish from watercraft operating with gasoline/electric propulsion (or any other fuel source). Watercraft permitted for use during competition are limited to those propelled by paddle, or pedal.

F. TANDEM/SHARING. It is permissible for more than 1 entrant to share the same watercraft. However each paddler must pay and compete as a single angler. They must also have their own camera, their own picture of the vessel at put in on their camera roll, and is scored separately. Fish may NEVER be shared among entrants.

10. PROHIBITED:

There is absolutely NO FERRYING (i.e. using another vehicle or boat, motorized or not to transport your kayak to a fishing location while on the water.)

11. PERMITTED FISHING LOCATIONS:

Fishing is permitted anywhere in the State of Virginia.

12. DIGITAL PHOTOGRAPHY:

Participants must use their own digital cameras/Phone for recording scoring fish, and a card reader will be used to download pictures.

A. If smart phones are used, GPS and date MUST be turned on and used. This information must be able to be retrieved by tournament staff (failure to do so will result in all pictures taken with that device ineligible).

B. If cameras are so equipped with GPS and/or date feature, this must be enabled and set with the current date and time.

13. PHOTO STANDARDS:

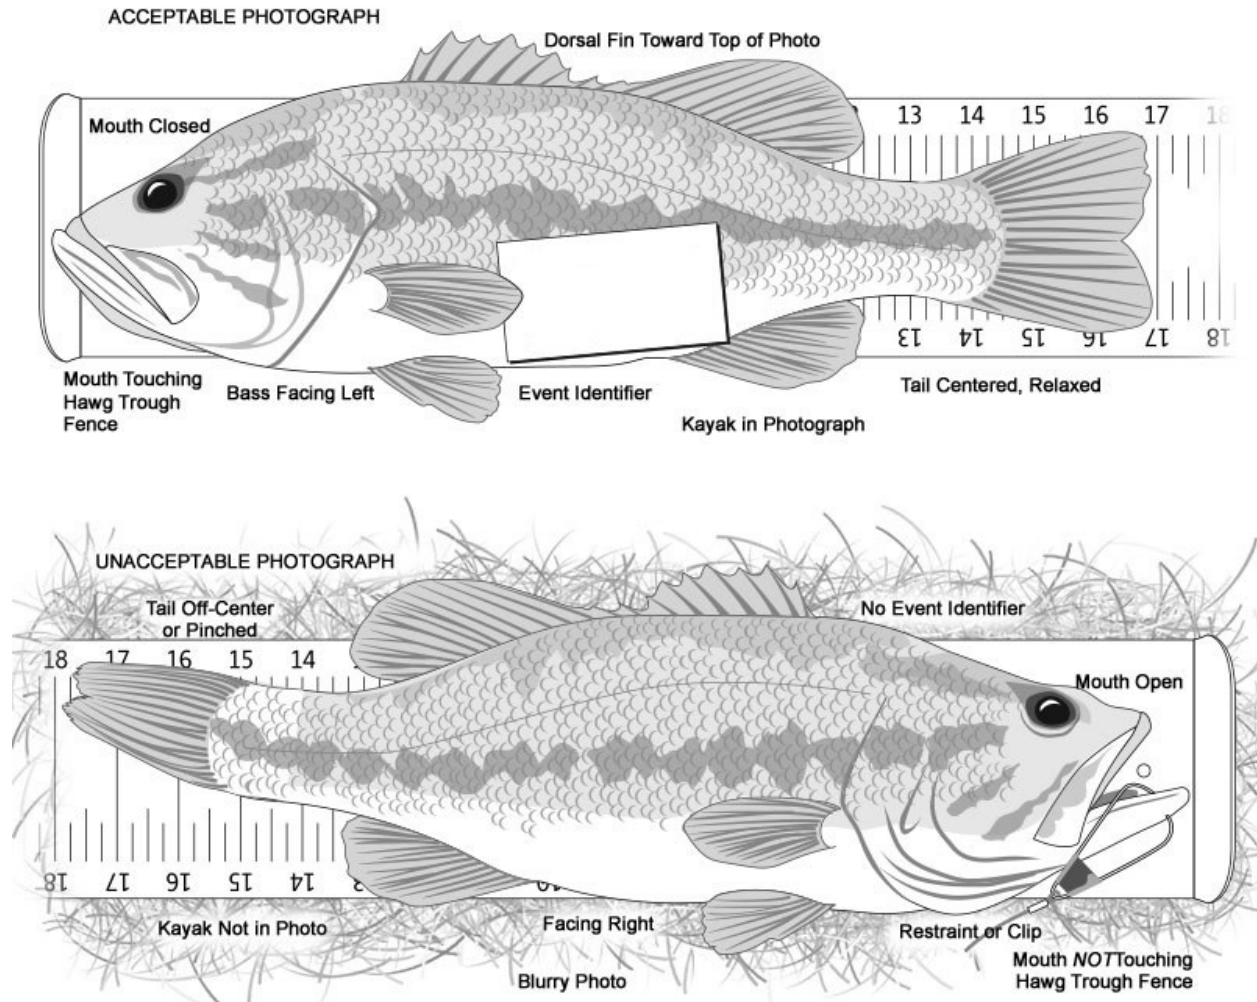

Digital photographs of fish submitted to judges for scoring must meet these criteria:

A. Legible. Photo must be clear enough to read identifier, including required ID codes and marks, and judge the length accurately. **After carefully examining photo details and cross-referencing other photos submitted for scoring by the same angler in the same event, if the event judge is NOT able to verify with 100% confidence that the Identifier Form and ID Codes or Marks in the photo are valid for both the competitive event and the competitor, then the photo will be denied.**

B. Official TKAA Tournament Committee Identifier Form placed where it does not cover the fish eye or prevent measurement verification. An image of the unique identifier on a smart phone is not acceptable.

C. Competitor's kayak clearly visible

E. Fish, as depicted below:

- i. Facing left on a Hawg Trough, left side of the fish visible, dorsal fin toward the top of the photo
- ii. Mouth completely closed with jaw and/or lips touching the Hawg Trough "fence." Position camera lens directly over the center of the fish's body to aid judges in determining that fish' mouth is closed and in contact with the fence. Photos judged to have been taken deliberately at an angle in order to make the fish appear longer may be disqualified at the Tournament Director's discretion.
- iii. Tail centered and in a relaxed, un-pinched condition and its tip in contact with the Hawg Trough. Regardless whether or not fingers are squeezing the tail, if the tip is less than 50% as wide as the base, or the longer lobe of the tail is compressed over 50%, that tail will be considered "pinched" and should be spread before photographing to avoid a point deduction.
- iv. To confirm that the fish is alive, the fish's eye must be uncovered in the photo. Photos of fish that appear to be dead, mutilated, frozen or similarly damaged will be disqualified without scoring. Photos of fish that appear to have been mangled, mashed, mauled or otherwise altered in ways that increase their length will be disqualified or approved for scoring at the discretion of the Tournament Director.
- v. No restraining device, clip, or band may be used to secure the fish being photographed. Securing the fish with any portion of a hand under the fish's gill flap is prohibited.
- vi. All photos become property of the TKAA.

14. SCORING:

A. The tournament is a catch, photo, and release format. Species division winners will be determined by the length of the combined longest 3 fish. Scoring fish must also be filled out completely and correctly, failure to do so will result in penalty or disqualification.

B. Fish length is determined by its tail touching or crossing a quarter-inch line on the Hawg Trough. If it falls short of a line, the length is rounded down to the nearest 1/4-inch mark that the fish' tail actually touches or crosses. Pinching the tail or angling the fish to achieve additional length will not result in a higher score and may result in deduction in length.

C. In the event of an exact tie in aggregate score, ties will be broken according to the time that the competitors' last fish photo was officially checked in by the Judges. Should the last fish photo submission times be identical, then both Competitors' highest single-fish score will be compared, and the higher score will be determining the outcome. If both Competitors' highest single-fish score, too, is identical, then the second highest single-fish score of both Competitors will be compared, and so on until the tie is broken by the highest single-fish score.

D. Grading criteria: the following standards in approving or disqualifying photos, and in accepting or adjusting lengths.
